

Addendum No. 2
Path Construction Project
South Dogwood Trail
Southern Shores, Dare County, North Carolina
August 22, 2019

The following shall take precedence over the plans and specifications of the above named project and shall become part of the Contract Documents. Original items of the specifications, contract documents and information indicated on the drawings not herein modified, amended, voided or suspended shall remain in effect.

General

1. Staging of materials and equipment will be facilitated within the Town owned right-of-way at the intersection of Osprey Lane and South Dogwood Trail and at the intersection of Wild Swan Lane and South Dogwood Trail. Contractors shall take all necessary precautions to cause no damage to these areas and to restore them to pre-construction conditions at the end of the use of the staging area.
2. Retaining walls shall be designed by a NC Licensed Professional Engineer with an expertise in structural engineering. The successful bidder shall provide signed and sealed engineering drawings for the proposed reverse cantilever retaining walls to be built. The engineering design of these retaining walls shall be the responsibility of the contractor.

Bid Documents

1. The E-verify Affidavit must be completed by the successful bidder and provided to the Town within the 10 working days allotted for document submission after the Notice of Award has been issued.

E-verify information is as follows as taken from the webpage - <https://www.labor.nc.gov/workplace-rights/e-verify/e-verify-information>:

The E-Verify program is a web-based system operated by the U.S. Department of Homeland Security in partnership with the Social Security Administration that allows participating employers to electronically verify the employment authorization of newly hired employees.

The N.C. General Assembly passed E-Verify legislation that became effective in three phases as follows:

Effective Oct. 1, 2012—employers with 500 or more employees were required to use E-Verify to check work authorization for all new hires.

Effective Jan. 1, 2013—employers with 100 or more employees were required to use E-Verify to check work authorization for all new hires.

Effective July 1, 2013—employers with 25 or more employees were required to use E-Verify to check work authorization for all new hires.

Businesses that are required to comply with this legislation can click on the following link to learn more about the E-Verify system and enroll in the program: [E-Verify](#).

The N.C. Department of Labor is the agency charged with investigating complaints for violations of the E-Verify law.

NCDOL began accepting complaints on the first effective date of Oct. 1, 2012.

NCDOL has adopted administrative rules to clarify how complaints will be handled against companies for failure to E-Verify their employees. The rules went into effect Oct. 1, 2012.

Please note that state agencies, counties and municipalities have separate E-Verify requirements, but the N.C. Department of Labor does not have jurisdiction to investigate complaints with respect to employees of these public entities. The N.C. Department of Labor will investigate the requirement for cities, counties and other political subdivisions of the state to ensure that contractors and subcontractors comply with the requirements of E-Verify pursuant to G.S. 143-133.3.

The definition of employee in North Carolina E-Verify law does not include an individual whose term of employment is less than nine months in a calendar year. Additionally, private employers with 24 or fewer employees are not required to use E-Verify.

North Carolina law does not exempt an employer from federal law or the provisions of the Memorandum of Understanding required by the U.S. Department of Homeland Security when an employer signs up to use the federal E-Verify system.

For more information on the E-verify legislation, visit the [UNC School of Government website](#).

Questions about policies and procedures related to registering with and participating in the E-Verify program should be directed to the U.S. Department of Homeland Security's hotline for employers at 1-888-464-4218.

For more information about workplace rights, please contact our toll free number at 1-800-NC-LABOR (800-625-2267).

Specifications

1. Service Life of Pressure Treated Lumber: All lumber shall be #2 SYP treated to 2.5 CCA AWPA Standard Use Code UC58

Plans

1. Contractors will be responsible for the purchase and installation of a pedestrian crossing sign and post in accordance with the plan details to be installed on Fairway Drive to notify westbound traffic of the upcoming pedestrian crosswalk. Notes on the plans indicate that this sign was to be part of "Alternate" 1 but it shall be part of the base bid quote for Path Segment 2.
2. No rebar reinforcement members will be required to be installed in the raised curb.
3. There are approximately 937 linear feet of parkway curb and 504 linear feet of raised curb within Segment 1 of the proposed path.
4. There are approximately 426 linear feet of parkway curb and 86 linear feet of raised curb within Segment 2 of the proposed path.
5. The contour near path centerline station number 6+00 of Path Segment 1 is a 12' elevation, the original plan erroneously shows this as an 11' elevation. See the sketch below.
